

Residential Sprinklers Testimonial

I cannot thank Matt and the team at Residential Sprinklers enough for the first-class service that we received on the recent retro-fit project in Tamworth. From the initial concept meeting to the commissioning and handover the team were extremely professional.

As the design developed for the 396 flats across 7 high rise blocks they remained helpful, competitive and patient supporting Lovell with meetings with the Client, fire service and residents. On site the installation teams were fantastic and the positive feedback we received from the residents was unprecedented.

Our site management appreciated their co-operation as nothing was too much trouble. The quality of workmanship and housekeeping was excellent, and they resourced the job adequately throughout the project.

During the project the installation process was constantly being refined and the installation period significantly reduced from a planned 5 day install programme per flat to under 2 days which allowed us to finish ahead of programme and keep disruption to residents to an absolute minimum.

We cannot thank or recommend Residential Sprinklers enough, without hesitation they would be my contractor of choice for the next sprinkler installation project.

Carl Yale

Regional Refurbishment Director
